52 m working height

The FS520C will be based on the same design philosophy as the FS420C, shown above.

We are proud to announce that WORLDLIFT INDUSTRIES AS now introduces the highest compact platform in the world. The FS520C. The first unit is already sold to the Dublin based international rental company, Easi Uplift. With the new machine Easi Uplift have all models in the Falcon Spider program in their rental fleet. The FS520C will be second to none in terms of working height, flexibility, safety and accessibility. As the highly successful FS420C, the FS520C will be based on the same design philosophy, featuring the unique double crawler system, and double link-arm system.

For further information, please contact the sales department, Brian Falck Schmidt +45 40310432 or Kenneth Arnswood +45 41176070.

John Ball, Fergus McArdle and Sales Manager Brian Falck Schmidt closing an order in Las Vegas in 2008.
